

# ***05/03/2026 Meeting Log***

Participants: Lea, Jr, Zack, Alex, Shashwat

Meeting Place: Zoom

In today's meeting we discussed the following:

## **Code Finalization & Progress Check:**

- Wrapping up the code and ensuring the program is fully ready for submission on Thursday, May 7th.

## **Document Formatting Guidelines:**

- Lea created and shared a guide on how to properly format the last two documents: the Test Case document and the User Manual. It can be accessed [here](#).

## **Test Case Document Breakdown:**

- We need to finish the test case document. Everyone is responsible for writing Sections 2, 3, 4, and 5. Ignore the standard section headings in the document, we will be using a table format to show our [test cases](#).

## **Assignments:**

- **Test Case Document (Finish by Tuesday, May 5th):**
  - Lea → Valid Expressions 1 - 4
  - Jr → Valid Expressions 5 - 8
  - Alex → Valid Expressions 9 - 12
  - Zack → Valid Expressions 13 - 15
  - Shashwat → Invalid Expressions 1 - 5
  - Alec → Invalid Expressions 6 - 10, Purpose of the document
  - Shashwat & Zack → Review Test Item descriptions and Output Specifications once everyone is done. Make sure it aligns with what we have in the code.
  - Jr → Review Input Specifications and Output Specifications so that it aligns with the Project Description document, as well as with our code.
  - Alex → Review the entire document to make sure it looks neat and ready for submission.
- **User Manual Document (Finish by Wednesday, May 6th):**
  - Alec → Purpose and Examples
  - Alex → Introduction and Glossary of Terms
  - Shashwat → Getting Started
  - Zack → Advanced Features
  - Jr → Troubleshooting
  - Lea → FAQ
